As soon as you walk into the Nakhchivan restaurant you will experience a time travel to the first Azerbaijani Oil boom.

Due to the large amount of light, the hall looks bigger than it is and consists of two areas – “the lounge”, arranged by the big glazing glass windows and “the dining”, which is furnished in vintage style. The luxury ambiance of the VIP-rooms decorated with amazing portraits and extravagant wallpapers creates an impression that a famous oil magnate like Nobel or Taghiyev may come in any moment.

The highlight of the place are the refined dishes of Nakhchivan traditional cuisine, prepared by the restaurant’s Chef, who knows all the secrets of it. Nakhchivan Restaurant also offers its guests a huge variety of Nakhchivan kebabs; amazing Ordubad snacks and desserts; 15 kinds of delicious pilaf – the real star of the show, and many other incredibly tasty traditional dishes.

Can you picture old meat storage in your mind for a second? Let's say it's a little brutal, shabby... Well, definitely not a fancy place to be at. Can you try harder and feel the smell of raw wood? The dim light coming from lamps darkened by time... Reflections on steel hooks hanging from the ceiling.

You did a great job imagining the interior of M'EAT, now let's move on to the best part - the wide variety of meat dishes, from snacks to juicy steaks.

Did we mention the fact, that each guest at M'EAT has the opportunity to actually see the process of his steak being cooked at our open kitchen? And our sommelier will help you choose the right kind of wine that will go along with your evening and emphasize the taste of juicy, perfectly roasted meat, delivered right from the USA.

Renewed BAKU Café is a real proof that fashion is able not to change traditions. Being comfortably situated in Port Baku Mall – the industrial center of the capital, BAKU Café is a combination of Organic vs. Industrial style new-fashioned interior and fully renewed menu, which is, by the way, also based on the fusion of two different cuisines – European cuisine meets Azerbaijani national dishes and none of them spoils the other. Uncommonly comfortable and incredibly delicious harmony – no other words can describe it better.

RETAIL

We are create iconic
branded retail concepts

The history of the U-Boat brand begins in 1942, when Ilvo Fontana – a watchmaker, was producing watches for the Italian Navy. Those watches were made with a unique left-hand configuration, with the robust crown system always placed on the left for comfort. The most important part of that particular design was high legibility, water resistance, and reliability.

Half a century later Italo, the grandson of this watchmaker went through his grandfather's archives and found the drawings of those watches, which were made back in 1942. Italo could not think of anything else afterwards.

Nowadays the watchmaking art is happening right in the heart of the Tuscan town of Lucca by the founder of U-Boat – Italo Fontana and the brand is considered as the true symbol of style.
